

FLIGHT PANEL™ 2

New Generation of Lightweight Polypropylene Panels

The lightest, strongest, and most economical panel in the market. A perfect and environmentally friendly alternative to ABS and PVC laminates on wood at an affordable price.

It has an outstanding compression and impact strength, making it perfect for Cases.

- Haircell / Pinseal pattern on both sides
- 100% recyclable: Environmentally friendly
- 4 Layers for extra strength
- Lightest panel to date
- Low cost
- Compatible with most printing processes
